No. 345.—Under section 4 of the Indian Civil Courts Act, 1913 (21 of 1913), as amended by 1919 Act 17 of 1919, the Local Deputy and, after consultation with the High Court, are pleased to direct that the number of Judges shall be to be appointed to the District Judge's Court, Port St. George, at the District of Port St. George, shall be one with effect from the 1st January 1925.

Port St. George, December 21, 1924.

[S.D. No. 200, Sec. 174, Law (General).]

No. 346.—In pursuance of subsection (1) of section 3 of the Indian District Provisions Act, 1914 (14 of 1914) of 1914, the Governor in Council is hereby pleased to approve the 12th January 1925 as the date on which the said Act shall come into force.

No. 347.—In pursuance of the power conferred by section 3 of the Indian District Provisions Act, 1914 (14 of 1914) of 1914, the Governor in Council is hereby pleased to make the following rules:—

1. (1) These rules may be called the Indian District Provisions Rules, 1924.

(2) They shall extend into force on and from the 12th January 1925.

2. In these rules, unless there is anything repugnant to the subject or context, "the Act" means the Indian District Provisions Act, 1914.

3. (1) Every person shall keep a separate account in respect of each loan.

(2) The name and address of the debtor, and in the case of joint-debtors, of each joint-debtor shall be entered at the head of the account.

(3) Every entry on an account shall be dated with the date of the transaction to which it relates and shall, so far as possible, be made on such date.

(4) The account shall show the balance on account of the time and of interest outstanding against a debtor on the 31st June and 1st December of every year and shall also show the balance outstanding on account of any payment of account payable in accordance with clause (1) of subsection (3) of section 2 of the Act.

4. The statements of account to be furnished to the debtor as well as the entries to be given in the book to be in English or in the official vernacular language of the locality.

5. (1) (a) The statement of account shall be sent to the debtor by registered post, acknowledgment due, in the address given in the statement made by the debtor. (b) In the case of joint-debtors, the statement of account shall, in the absence of an agreement to the contrary, be sent to the member last named in clause (1) of the joint-debtor named first at the head of the account.

(2) Notwithstanding anything contained in sub-rule (1) where the debtor is, in the case of joint-debtors, the joint-debtor named first at the head of the account is writing to the statement being delivered personally, it shall not be necessary to send it by registered post.

(3) When a debtor or a joint-debtor takes personal delivery of the statement of account, he shall acknowledge receipt of the same in writing. The debtor or the joint-debtor, at the same time, shall sign the acknowledgment, or if he is illiterate, affix his thumb impression thereto.

(4) If the statement of account is sent by registered post, the production of the postal receipt and acknowledgment shall be sufficient proof of the delivery of such statement.

(5) The postal receipt and acknowledgment charges referred to in sub-rule (1) shall be entered in the account and shall be recoverable by the creditor as if such charges were included in the loan, but no interest shall be charged thereon.

(6) (a) The fee which may be charged by a creditor for a statement of account furnished by him under sub-rule (1) of subsection (3) of section 2 of the Act shall be as follows:—

(b) If the amount of the loan does not exceed Rs. 100, the fee shall be Rs. 100 but does not exceed Rs. 100.

(c) If the amount of the loan exceeds Rs. 100 but does not exceed Rs. 200, the fee shall be Rs. 200 but does not exceed Rs. 200.

(d) If the amount of the loan exceeds Rs. 200 but does not exceed Rs. 300, the fee shall be Rs. 300 but does not exceed Rs. 300.

(e) If the amount of the loan exceeds Rs. 300 but does not exceed Rs. 400, the fee shall be Rs. 400 but does not exceed Rs. 400.

(f) If the amount of the loan exceeds Rs. 400 but does not exceed Rs. 500, the fee shall be Rs. 500 but does not exceed Rs. 500.

(g) If the amount of the loan exceeds Rs. 500 but does not exceed Rs. 600, the fee shall be Rs. 600 but does not exceed Rs. 600.

(h) If the amount of the loan exceeds Rs. 600 but does not exceed Rs. 700, the fee shall be Rs. 700 but does not exceed Rs. 700.

(i) If the amount of the loan exceeds Rs. 700 but does not exceed Rs. 800, the fee shall be Rs. 800 but does not exceed Rs. 800.

(j) If the amount of the loan exceeds Rs. 800 but does not exceed Rs. 900, the fee shall be Rs. 900 but does not exceed Rs. 900.

(k) If the amount of the loan exceeds Rs. 900 but does not exceed Rs. 1000, the fee shall be Rs. 1000 but does not exceed Rs. 1000.

(l) If the amount of the loan exceeds Rs. 1000 but does not exceed Rs. 1100, the fee shall be Rs. 1100 but does not exceed Rs. 1100.

(m) If the amount of the loan exceeds Rs. 1100 but does not exceed Rs. 1200, the fee shall be Rs. 1200 but does not exceed Rs. 1200.

(n) If the amount of the loan exceeds Rs. 1200 but does not exceed Rs. 1300, the fee shall be Rs. 1300 but does not exceed Rs. 1300.

(3) All employees under Government, local boards or municipal councils, who are required to pass in any of the subjects included in this examination.

(4) All other persons who are specially permitted by the Government to appear.

(5) Candidates who are to appear for the examination under paragraph 6 (1) will be given by the Government the following information:

(a) Candidates who appear and fail in a particular subject and grade may appear for the examination in that subject and grade. Those who have passed in the second class in any subject and grade may come up to qualify for the first class in that subject and grade on passing the full examination.

(b) Candidates who do not possess the required general education qualifications or have not been permitted by the Government to appear, will be admitted in the lower grade if they already appear of and failed in the Elementary or Intermediate grade and in the higher grade, if they already appeared and failed in the Advanced grade, provided the subject is the same in each case.

(c) Candidates who come under this category and who by reason of which class they appear should appear at their applications for admission to the examination, the year in which they failed and the centre at which they appeared in the said subject and grade.

(d) No candidate can claim to come up for the Higher grade by reason of his having passed the Elementary or Intermediate or Lower grade. In such cases, the previous permission of the Commissioner should be obtained.

(5) All other candidates who do not come under paragraph (1) to (4) above should obtain the previous permission of the Commissioner to appear for the examination and should accordingly submit their applications for permission on or before the first January next to the year in which they wish to appear, along with such application a certificate.

11. Further attention is presented in the instructions regarding the marking and issue sheets of papers printed on the answer books. All rough working must be shown on the left hand page of the answer books throughout. The separate book for rough working will be supplied to candidates. These must not be detached from the answer books of candidates. If the necessary answer books are found insufficient, additional books will be allowed and these should be securely fastened to the answer books.

12. When candidates have finished writing their answers, and wish to give up their answer books, or at the end of the period permitted for each particular part of the examination, each should stand up, sit in place and remain standing until one of the superintendents has gone up to him and has returned his answer book from him.

13. Candidates wishing for the examinations at the different stations should apply to the Chief Superintendent of the respective station by three half hours before the commencement of the respective examinations. Any candidates not at the last named station from their place in the application for the examination should be immediately reported to the Chief Superintendent by the relevant candidate.

14. No notice whatever will be allowed to admit a candidate for any examination after that date on which the college has been closed, except for satisfactory reasons and on the recommendation of the President of the college.

15. A candidate who neglects his course of study in an affiliated college but appears for the examination is treated as a probationer, and, having failed previously, should necessarily repeat the same course in which the college he studied at.

16. Candidates appearing at stations where they are not known must be prepared to supply the Chief Superintendent of each course as to their standing. They must also be prepared to place their signatures upon the observations and notes produced by them before the Chief Superintendent of the respective station. This after form when the observations are returned is returned with answers to the President of the college as a document of proof of work and due then sent of a Sub-Master, pointing out that it is the duty of a candidate for the Matriculation examination to obtain a certificate from the headmaster of a recognized school with which he is affiliated.

- 15187 T. McClellan. Improvements in gas producers for use with internal combustion engines. Definition of liquid fuel to be fed to contact with burning gas to be conducted by engine stroke.
- 15187 A. Spencer and George Spencer Moulton & Co., Ltd. Improvements in and relating to liquid-fuel sprays. (November 25, 1934.) Elements of liquid propellant form with nozzled tubes.
- 15188 Automatic Electric Co., Ltd. Improvements in electric-motor wind and stator driving mechanisms, suitable for step-by-step operation. Core and pole pieces and air end piece.
- 15178 J. J. Curtis and G. V. Harner. An improved path for marking railway wooden sleepers, for the use, by marking or staining letters or figures thereon. Sleepers being kept having two projecting parallel ridges with nothing thereon.
- 15189 The General Electric Co., Ltd. Improvements in or relating to Cathode-ray Oscilloscopes for use in television. (January 10, 1934.) Cathode-ray focus displaced in phase, defocus done in accordance with a certain frequency.
- 15190 Gresh, Ross, Williams, Ltd. Improvements in or relating to the mounting of stretcher bars to the stretch length rails of railway and like vehicles or parts. Tension rail is secured to stretcher bar by means welded to the bar.
- 15191 D. M. Thomas. Improvements relating to direct current dynamo electric machines, and the primary and secondary coils controlled by a set of seven extended coils.
- 15192 "Portus" Chemicals (P.L.C.) Ltd. Improvements in or relating to electric heaters. As improved gas-tight coil. Electric light heaters of electric heaters, &c., a sturdy product.
- 15176 The General Electric Co., Ltd. Improvements in or relating to elements for feeding electric discharge tubes. (April 16, 1934.) One device connected in series with another for heating the electrode.
- 15175 M. Ahmad Zia. An improved governor for an engine. Governor controlled by the difference of pressure applied by a spring and the centrifugal force of a rotating flywheel.
- 15193 Graham & Duncan, Ltd. Improvements in hydraulic systems. (June 27, 1934.) Providing means and means for controlling means whereby hydraulic fluid is pumped.
- 15194 Neumann Neumann, Maschinenbau und Explosions- und Bau-Beschreibung N.Y. A method and an apparatus for imparting a gyro density in substances in powder form and for filling up liquid space with non-soluble particles of the said substances. Powdered substance occupied by centrifugal force.
- 15187 Le. Peterson Cathode-ray (or X-ray) Tube. Improvements in and relating to cathode discharges. Removal of electrode gases before cathode deposition.
- 15189 A. Thompson. Improvements in methods of producing dry ice rollers and in apparatus therefor. (July 10, 1934.) Comminuting the solid ice of the ice roller while in the operation condition.
- 15195 Alexander Graham & Co., Ltd. Upper cylinder mechanism in solid or semi-solid form. (July 15, 1934.) Acting to water fuel a mixture of material and gases at main and discharge valves in which is incorporated also an air-fuel or fuel supply.
- 15200 Society of Chemical Industries & Banks. Process for producing fuel from the form. (January 10, 1934.) Substantially insoluble product for the use of the engine.
- 15201 Francis Weyman & Co. Variation of copper surface with solid solution of lead in copper. (January 10, 1934.) Substantially insoluble product for the use of the engine.
- 15202 M. N. Thomas. Improvements relating to heavy sections. (December 8, 1934.) Construction with pins of a plate across to hold down the web through or it passes around the web.
- 15203 J. M. Richard. Improvements in or relating to hand-operated maintenance repairer for devices for structural and like work. Two parallel rollers with a pressure and pressure member having its ends rigidly connected with and outside the periphery of the web.
- Calcutta, the 15th October 1935
- 15204 M. Richard. Improved device for explosion or internal combustion engines. (December 13, 1934.) Exhausting exhaust valve system and exhaust valve system.
- 15205 Electric & Steel Industries, Ltd. Improvements in or relating to methods of tube, (October 2, 1934.) Apparatus and means for applying to tube perforated portion with respect to method.
- 15206 F. Day. An improved shelter or building machine for grass. Screen adjusted by oil pressure blades with a curved surface supported by turning a screw-screw.
- 15207 Schott & Co. Improvements in or relating to the manufacture of the alkali-silicate glasses. (December 23, 1934.) Alkali-silicate glasses.
- 15208 The General Electric Co., Ltd. Improvements in or relating to vacuum tubes. (January 6, 1934.) Improved method of mounting a plurality of separate vacuum tubes in a single vacuum envelope.
- 15209 G. H. Bullock. Improvements in and relating to the production of paper, glass plates and other hollow or curved metal bodies and for shaping. (December 10, 1934.) Alloys of a metal plate to a fabric sheet by locally pressing two members having threaded or serrated surfaces.
- 15210 The General Electric Co., Ltd. Improvements in electric light tubes. (January 20, 1934.) Gas-tight tube is provided with a lead for drawing any gas from the tube.
- 15211 Ahmad Zia. An improved method for heating engine cylinders. Fuel fed to roller mounted to rotate and reciprocate.
- 15212 Dr. C. Otto & Co. Gas-tight and back-suction lifting. Improved method of drawing of the gas of a distribution from a continuously operated chamber system. (December 11, 1934.) By forcing air in the chamber, communicating with the gas collecting point.
- 15213 O. Kautschuk. Improvements in process for the separation of the individual fibres in sheet material. Process for the removal of the individual fibres from a sheet material.
- 15214 W. Leitch. Apparatus for restricting section openings. Extreme pressure, a spring force in a sheet provided with flexible ribs.
- 15215 Victor, Ltd. Improvements in or relating to the manufacture of products from rubber. Process for the production of a sheet of rubber having a shape of the desired article and appearance.
- 15216 British Shell Oil Storage & Distributing Co., Ltd. Method of and apparatus for drawing into a tank. Drawing of rubber into a tank from a roller and roller.
- 15217 B. S. Wadsworth. Improvements in or relating to liquid mixing means. The use of a bell, rope or the like made of wire or like plastic material.
- 15218 E. S. Wadsworth. Method of and apparatus for the manufacture of sheet of wire, rope, braided and like based articles. Braided and woven sheet pushed forward and held between two rotating rolls or shaping rolls.
- 15219 Alkali-silicate Industries & Banks. Improvements in or relating to water systems. (June 27, 1934.) Strip of sheet material folded and pushed forward to form a chamber with opening sections for valves or with device.
- 15220 J. A. Smith. Improvements relating to tea withering. (June 27, 1934.) Spins below racks progressively reduced towards middle.

22018 Elektrochemische Werke Mannheim Attempts to improve the improvement in the process of producing hydrogen, namely, adding water vapor to produce a saturated atmosphere above the electrodes and to prevent discharge at active the electrodes to prevent.

22019 International General Electric Company of New York, Ltd. Improvements in and relating to systems electric induction devices Current leading radially insulated hollow shafts and the electrodes of which the shafts are a part.

22020 Howard and Robinson, Ltd., and J. Welch. Improvements in and relating to the method of ring spraying ring drilling and the frames. (September 27, 1934.) Ejecting surface of the novel situated below level and of spindle.

22021 M. Kirschner and J. F. Pashen. Improvements in and relating to pile drivers and the method of making the same. Adopting resistance through electric cables, and loops, applying a coating of the lead and surrounding them by insulating.

22022 D. Fitzgerald. Improvements relating to the mixing and grinding machines. (July 28, 1934.) A detachable cup with entry or lateral projections therein adapted to receive the work around the spindle.

22023 Messrs. Hunsch, Gieseler and Co. Improvements in and relating to the method of making the same. (May 28, 1935.) Two after parts of the two back to prevent rotation and to act as a cushion for a rotating one held by the container wall.

22024 L. L. Hallberg. Improvements relating to the method of making the same. The improvements consist of the position of the peripheral surface of the part of the boundary of the whole end.

22025 T. H. Hunsch. Improvements in and relating to the method of making the same. (October 9, 1935.) Two and four machines at right of the part of the end in the same or opposite side thereof.

22026 Anders Nyquist-Forsberg and P. Forsberg. Improvements in and relating to the method of making the same. The improvements consist of the position of the peripheral surface of the part of the boundary of the whole end.

22027 F. H. Hunsch. An improved way for making the end in a two end. The improvements consist of the position of the peripheral surface of the part of the boundary of the whole end.

22028 J. H. Hunsch. An improved way for making the end in a two end. The improvements consist of the position of the peripheral surface of the part of the boundary of the whole end.

22029 F. H. Hunsch. An improved way for making the end in a two end. The improvements consist of the position of the peripheral surface of the part of the boundary of the whole end.

22030 J. H. Hunsch. An improved way for making the end in a two end. The improvements consist of the position of the peripheral surface of the part of the boundary of the whole end.

22031 The General Electric Co., Ltd. Improvements in and relating to the method of making the same. (January 5, 1934.) Two and four light added to make four light.

22032 International General Electric Co. of New York, Ltd. Improvements in and relating to the method of making the same. (January 5, 1934.) Two and four light added to make four light.

22033 R. E. Hunsch. Improvements in and relating to the method of making the same. (January 5, 1934.) Two and four light added to make four light.

22034 F. H. Hunsch. An improved way for making the end in a two end. The improvements consist of the position of the peripheral surface of the part of the boundary of the whole end.

22035 Elektrochemische Werke Mannheim Attempts to improve the improvement in the process of producing hydrogen, namely, adding water vapor to produce a saturated atmosphere above the electrodes and to prevent discharge at active the electrodes to prevent.

22036 M. C. Hunsch. Improvements in and relating to the method of making the same. (January 5, 1934.) Two and four light added to make four light.

22037 Low Temperature Carbonization, Ltd. Improvements relating to the method of making the same. (January 5, 1934.) Two and four light added to make four light.

22038 Low Temperature Carbonization, Ltd. Improvements relating to the method of making the same. (January 5, 1934.) Two and four light added to make four light.

22039 Low Temperature Carbonization, Ltd. Improvements relating to the method of making the same. (January 5, 1934.) Two and four light added to make four light.

22040 Low Temperature Carbonization, Ltd. Improvements relating to the method of making the same. (January 5, 1934.) Two and four light added to make four light.

22041 Low Temperature Carbonization, Ltd. Improvements relating to the method of making the same. (January 5, 1934.) Two and four light added to make four light.

22042 Low Temperature Carbonization, Ltd. Improvements relating to the method of making the same. (January 5, 1934.) Two and four light added to make four light.

22043 Low Temperature Carbonization, Ltd. Improvements relating to the method of making the same. (January 5, 1934.) Two and four light added to make four light.

22044 Low Temperature Carbonization, Ltd. Improvements relating to the method of making the same. (January 5, 1934.) Two and four light added to make four light.

22045 Low Temperature Carbonization, Ltd. Improvements relating to the method of making the same. (January 5, 1934.) Two and four light added to make four light.

22046 Low Temperature Carbonization, Ltd. Improvements relating to the method of making the same. (January 5, 1934.) Two and four light added to make four light.

22047 Low Temperature Carbonization, Ltd. Improvements relating to the method of making the same. (January 5, 1934.) Two and four light added to make four light.

22048 Low Temperature Carbonization, Ltd. Improvements relating to the method of making the same. (January 5, 1934.) Two and four light added to make four light.

22049 Low Temperature Carbonization, Ltd. Improvements relating to the method of making the same. (January 5, 1934.) Two and four light added to make four light.

22050 Low Temperature Carbonization, Ltd. Improvements relating to the method of making the same. (January 5, 1934.) Two and four light added to make four light.

22051 Low Temperature Carbonization, Ltd. Improvements relating to the method of making the same. (January 5, 1934.) Two and four light added to make four light.
